### **Power Products LLC, Parent Company of Marinco and Mastervolt Acquires Professional Mariner (ProMariner™)**

Menomonee Falls, WI, July 1, 2014 - Power Products, LLC announces its acquisition of Professional Mariner, LLC (ProMariner™). Based in Portsmouth, N.H., ProMariner is a recognized 35-year leader in the design and manufacture of advanced electronic onboard marine charging systems, ABYC compliant galvanic isolation products, TruePower marine inverters, marine binoculars, and accessories.

"The acquisition of ProMariner further builds and strengthens our portfolio of leading global power electronic products and brands," said David Scheer, CEO-Power Products, LLC.

ProMariner will continue operations in its existing location under the current leadership team as the new partnership works to grow synergies within the current marine and mobile division.

Power Products LLC Marine & Mobile business segment, which includes Marinco®, Mastervolt and Ancor®, are the global leaders in marine and mobile electrical products and systems. #### **About Our Global Marine Brands**

Marinco®, Mastervolt, Ancor® and Marinco by BEP are the global leaders in marine electrical components and systems. They provide feature-rich, intelligent products designed and constructed for the harsh marine environment that meet or exceed global industry standards. These powerful electrical brands under singular, private ownership, offer a broad product portfolio that includes components and systems that connect, convert, store, manage, propel and generate power, as well as cutting-edge, intuitive digital switching technology and marine accessories. For more information about the specific products that each of these brands provides and the markets they serve, please visit [marinco.com](http://marinco.com), [mastervolt.com](http://mastervolt.com), and [ancorproducts.com](http://ancorproducts.com).
